

# MOLDEx<sup>®</sup>

**HEARING AND RESPIRATORY PROTECTION**

Moldex's expertise is hearing and respiratory protection to keep workers safer. This laser like focus results in an offering of innovative world class products.

- Our core products are manufactured in the U.S.A.
- Moldex is specialized in an age of generalization.

More Air. More Wear.™

- Exclusive easy-breathing wave design.
- Less resistance, better breathability.
- Flex-Fit® comfort waves flex with you.
- Soft, cloth SmartStrap® is both hangable and adjustable.

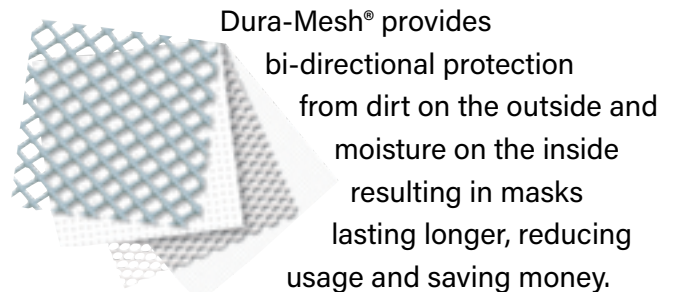

Glide's unique multi-curved stem custom fits, with just a push and a twist.

With over 50 patents, Moldex is dedicated to developing innovative solutions that address the hearing and respiratory needs of industrial and healthcare employees.

### Some of our industry leading solutions include:

The unique contoured shape of Meteors® follows the curves of the ear canal to create exceptional all-day comfort while still providing serious protection.

Dura-Mesh® provides bi-directional protection from dirt on the outside and moisture on the inside resulting in masks lasting longer, reducing usage and saving money.

Up to three distinct sizes in industrial masks and five sizes in healthcare to address today's diverse workforce.

HandyStrap® and SmartStrap masks can be conveniently stored around the neck while on a break, keeping them from getting prematurely thrown away or misplaced.

The first disposable earplug dispenser. PlugStations™ hang anywhere earplugs are needed to increase compliance and reduce waste.

The first corded earplug dispenser. Moldex now offers a PlugStation to those that require a corded earplug.

The refillable and recyclable EcoStation™ is easy on the hearing protection budget and easy on the environment.

An air pocket in the tip of our Rockets® reusable earplugs provides incomparable comfort.

The 9000 Series full face respirator's exclusive overmolded technology reduces weight, parts, maintenance and cost.

All Moldex products and packaging are PVC-Free. A scientific study by Nicholas Anastas, Ph.D. Principal, Poseidon's Trident LLC, and Matthew Eckelman, Ph.D. at Yale University, Center for Industrial Ecology, confirms that considering the full life cycle of PVC vs. Polyurethane and Polypropylene, the scientific data supports the conclusion that use of Polyurethane or polypropylene are "green" alternatives to PVC and are ecologically preferred. Toxic chemicals associated with PVC disposal have been linked to a variety of health hazards.

Moldex has taken a leadership position among global PPE manufacturers in minimizing our environmental impact. We began with the complete elimination of PVC which is linked to one of the most environmentally toxic materials in landfill disposal and this initiative has now grown into a corporate culture that constantly looks to manufacture innovative products that minimize environmental impact.

### Green products and packaging

- Removal of all PVC from our products and packaging.
- Dura-Mesh® shell on disposable respirators allows fewer respirators to be used and a reduction in the waste stream.
- Respirator Lockers® EcoStations and Pocket-Paks® are recyclable products.
- Use of recycled paper for all literature and packaging throughout the company.

# MOLDEX

### MORE AIR. MORE WEAR.™

- Exclusive easy-breathing wave design.
- Less resistance, better breathability.
- Larger surface area of the wave design means more airflow.
- More air and more comfort means more wear and compliance.

N95 AirWave 2-Strap

N95 AirWave SmartStrap

N95 + Nuisance Organic Vapors  
AirWave SmartStrap w/ Full Flange

▲ 4200 N95

▲ 4600 N95

● 4800 N95

*Outer Dura-Mesh® keeps  
respirator cleaner looking.*

*Inner Dura-Mesh® helps prevent  
collapsing from heat and humidity.*

*Filter is protected on  
both sides by Dura-Mesh®.*

*Softspun® lining is comfortable  
against the face.*

*Soft Foam Full Face Flange  
on 4300, 4400, 4700 and 4800 models*

## MORE COMFORT. MORE USE.

- Soft cloth SmartStrap® allows you to adjust for a custom fit, and allows respirator to hang around the neck when not in use.
- Cool and comfortable SmartStrap allows respirator to hang around the neck when not in use.
- Longer use means less waste, fewer respirators used and lower costs.
- Metal free. (SmartStrap models only).

## SMARTSTRAP

### Adjustable

Simply pull straps for a custom fit

### Hangable

Break the take-off and toss habit

## N95 HEALTHCARE RESPIRATORS & SURGICAL MASKS

### 1500 N95 Series Healthcare and Surgical Mask

1510 N95 XS

1511 N95 S

- Available in 5 sizes for today's diverse workforce.
- Highest ASTM level of fluid resistance on the market (160mm Hg).
- Bacterial Filtration Efficiency (BFE)>99.9%.
- Meets CDC guidelines for TB exposure control standards and protection against laser plumes of surgical smoke.
- No need for pre-stretching straps.
- Not manufactured with natural rubber latex.

#### ● Potential Healthcare Applications:

Surgery, hospitals and healthcare facilities, nurse/hospice care, correctional facilities, police, fire and rescue teams, EMS/EMT, homeless shelters, occupational health facilities, school healthcare offices. Note: For areas with oils present, you must use an R or P respirator.

#### ▲ N95 Series Applications:

Grinding, Torch Cutting, Sanding, Metal Pouring, Sweeping, Metal Working, Bagging, Foundries, Stone Quarrying, Agriculture, Metal Machining, Construction Sites, Cement, Ceramics Manufacturing, Underground Mining, Timber/Lumber Mills, Polishing, Buffing, Lime, Poultry, Textiles, Welding, Brazing, Soldering.

#### ● N95 Plus Nuisance Levels of Ozone and Organic Vapors Applications:

Welding, Arc Cutting, Foundry Operations, Brazing, Plasma Spraying, Laser Beam Cutting/Welding, Laboratory Settings, Agriculture, Petrochemical Manufacturing, Rendering Plants, Auto Repair, Mining Operations, Waste Disposal.

#### ● N99 Series Applications:

Welding, Soldering, Brazing, Metal Working, Grinding, Sanding, Cement Work, Metal Pouring, Underground Mining, Textile Manufacturing.

*Always refer to instructions before using. 100% PVC-Free for a greener alternative.*

## **COMPLIANCE JUST GOT A WHOLE LOT EASIER**

Moldex designed the 7000 and 7800 half masks and 9000 full face series to be the most user friendly respirators on the market. These streamlined respirators feature fewer parts, minimal maintenance, and a wider field of vision. They are all ultra-light

weight, durable, and economical, so maximum comfort with extended use is built-in. The award-winning 7000/7800/9000 series add up to simple, comfortable, and economical respiratory protection that's just plain EASY TO WEAR.

## **7800 PREMIUM SILICONE HALF MASK**

The 7800 Premium Silicone Half Mask has higher resistance to heat and compression, with all the enhanced comfort and durability of silicone.

### **Full range of gas/vapor cartridges for these common applications and environments:**

Foundries, paper, pesticides, wood products, printing, pharmaceuticals, agriculture, tobacco, mining, petrochemical, aluminum processing, textiles, glass, chemical manufacturing, paint, laboratories, utilities, cement, fiberglass, coal, fertilizer, petroleum refining, oil or water-based paints, electroplating, embalming, rendering, adhesives, construction, automotive, food processing, mining, transportation industries, ship/boat building, health services, furniture manufacturing, primary and fabricated metal.

### **Common applications and environments for 7940 P100 filter and 7990 P100 cartridge:**

For contaminants where an OSHA substance specific standard applies (asbestos, lead, cadmium, inorganic arsenic, MDA) requiring a High Efficiency Particulate Air (HEPA) filter as well as pharmaceutical, battery, nuclear, welding, metal processing. Also for use in environments where oil-based particulates are present.

### **Common applications and environments for N95:**

Welding, grinding, machining, bagging, buffing, cement, metal working, dusty environments, foundry, mining, poultry, sanding, wood, furniture, textiles, waste processing.

*Always refer to instructions before using. 100% PVC-Free for a greener alternative.*

### 7000/7800 FEATURES

Wide flange fits more facial shapes comfortably

Adjustable head harness for a custom fit

Compact, fits under welding helmets

Low profile, angled cartridge placement for wider field of vision

Contoured neck buckles for comfort and quick attachment

Easy mount bayonet cartridge/filter attachment

Attached exhale cover for easy inspection

The versatile 7000/7800 has optional drop down/lock down strap modes

7000/7800 in Drop Down Mode

Lock down mode

Drop down mode

100% PVC-Free for a greener alternative.

## 9000 FEATURES

*Lightest weight facepiece  
of any popular model.  
Weighs less than 13 ounces.*

*Over-molded buckles for  
secure strap attachment -  
one finger strap release*

*Stand away head harness  
for easy donning*

*Lens with scratch resistant  
coating meets ANSI Z87+  
for impact protection.  
Tear away lens protector  
included.*

*Completely free of metal parts*

*Over-molded flange to lens.  
Eliminates heavy metal  
clamping frame for less  
weight and fewer parts.*

*Panoramic lens with peripheral  
vision side panels*

*Integrated exhale area with attached  
cover. Fewer parts, simple maintenance  
and inspection.*

*Easy mount bayonet  
cartridge/filter attachment*

*100% PVC-Free for a greener alternative.*

## 7000 PRE-ASSEMBLED RESPIRATOR KITS

- All Moldex Particulate Filters are NIOSH certified
- P100 Particulate filter disks are lighter than traditional filter cartridges
- P100 Particulate filter disks allow for wider field of vision because of low profile design
- P100 Particulate filters are encased in plastic for durability and rough handling
- P100 Particulate filter disks fit under welding helmets
- Fiberglass free
- P100 Particulate filter disks are easy twist on/twist off, with bayonet style attachment P100 Filter Disks have efficiency level of 99.97% or greater against both oil and non-oil based particulate aerosols
- Piggyback the 7940 P100 Particulate Filter Disk with any Moldex gas/vapor cartridge using the 7920 Piggyback adaptor
- Meets heat and flame resistance in accordance with ANSI/ISEA 110-2009 Section 7.11.1.
- 100% PVC-Free, like all Moldex products & packaging - for a greener alternative

### P100 Particulates

#### Includes

## PREMIUM EARMUFFS

The MX-5, MX-6 and MX-7 are a cool and comfortable upgrade in earmuffs. The larger cup openings are designed to fit most ear sizes. Exclusive waffled cup foam delivers superior protection in MX-6 and MX-7.

The cushion-ribbed headband allows cool comfort all day long and the non-slip wire makes adjustments easy. The MX-5, MX-6 and MX-7 are easy to wear and durable, have a sharp, cool look and increase compliance.

- The headband is made of lightweight plastic and metal
- Exclusive bright green colour and sleek, curvy shape for a look that workers will want to wear.
- 100% PVC-Free for a greener alternative.

## TRAIN-THE-TRAINER PROGRAM

- Train and certify a designated employee at your company to perform onsite fit testing for your workers.
- Qualitative & Quantitative Programs.
- Our training program includes a syllabus, Respirator Selection Guide, training certificates and wallet cards.

## PORTACOUNT LOAN PROGRAM

- Quantitatively test a variety of respirator types eliminating the guesswork found with other testing methods.
- For details on our loan program, contact our Technical Service Department at 800-421-0668 ext. 512 or at [tech@moldex.com](mailto:tech@moldex.com).

## FITCHECK SOLO LOAN PROGRAM

- FitCheck Solo™ helps take the guess work out of matching the correct hearing protection with known noise exposure.
- Test from 3 to 7 frequencies and generate the FitCheck Solo Personal Attenuation Rating (PAR).
- For details on our loan program, contact our Technical Service Department at 800-421-0668 ext. 512 or at [tech@moldex.com](mailto:tech@moldex.com).

## OHD CARTRIDGE LOAN PROGRAM

Part #9513-0400

- Quantifit then establishes and maintains a slight vacuum, or controlled negative pressure, inside the mask.
- CNP technology was accepted by OSHA in 1998, and has quickly been adopted by industry to be the quickest and most accurate way to perform respirator fit testing.
- The gold standard in respirator fit testing.
