| ΩmegaPost 2" Open Top | 28"<br>36"<br>42" | 2.375"        | Yellow, Orange or White | Two 3" bands of reflective sheeting | Type V High Intensity Abrasion Resistant Sheeting | White, orange, yellow, red, green or blue | Surface Mount Quarter Turn Base |

*\*Base and base mounting hardware is sold separately. Post spring type must be specified at time of order. \*\* Protective Bollard height is based on post height.  
\*Open Top post is left with a smooth cut, open top*

### TWO METHODS OF INSTALLATION:

#### 1. ANCHOR KIT

#### 2. EPOXY KIT - HIGH SPEED APPLICATION

1. Insert the threaded post into base with holes aligned 90° to keeper pin slot.
2. Push down to insert the post and rotate clockwise until fully seated.

3. Install L-shaped keeper pin through base and into post hole such that the pin lies flat in the retention slot on the top of the base.
